

Caspase-10 Polyclonal Antibody

CATALOG #:	3410-200
AMOUNT:	200 µg
LOT #:	_____
HOST:	Rabbit
IMMUNOGEN:	Synthetic peptide surrounding amino acid 404 of human caspase-10 (ID# BV-15)
SPECIES REACTIVITY:	human, mouse, rat

FORMULATION:

200 µg (200 µg/ml) affinity purified rabbit anti-caspase-10 polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 0.01% thimerosal.

BACKGROUND:

Caspase family of cysteine proteases play a key role in apoptosis. Caspase-10 is expressed in many tissues and cell lines, and has been identified as caspase-10/a (short form) and caspase-10/b (long form), respectively. Similar as other caspases, caspase-10 is also synthesized as an inactive pro-enzyme that is processed in cells undergoing apoptosis. Activated caspase-10 activates caspase-3,-4,-6,-7,-8, and -9, which are then involved in proteolytic cleavage of many cellular proteins. Caspase-10 has been shown involving in the Fas and TNFR1 induced apoptosis.

SPECIFICITY:

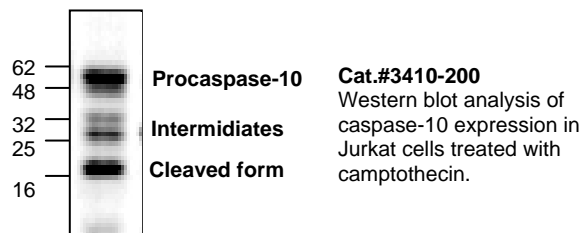

The antibody detects the proform (~55 kDa), intermediates (30 kDa and 34 kDa), and cleaved form (~20 kDa) of caspase-10 on SDS-PAGE immunoblots.

APPLICATION AND USAGE:

The antibody can be used for Western blotting (0.5-4 µg/ml). However, the optimal conditions should be determined individually. Blocking peptide is available separately (Cat.# 3410BP-50).

STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.
