

Caspase-3 Antibody (Clone C33)

CATALOG #:	3004-100
HOST:	Mouse
ISOTYPE:	IgG ₁
CLONE:	C33
IMMUNOGEN:	Recombinant human Caspase-3
SPECIES REACTIVITY:	Human, mouse, rat
FORMULATION:	100 µg (0.2 mg/ml) in PBS containing 50% glycerol, 0.5 mg/ml BSA and 0.01% thimerosal.
STORAGE:	Store at -20°C. For long term storage, aliquot and refreeze at -70°C. Avoid repeated freeze/thaw cycles.

DESCRIPTION:

The caspase family of cysteine proteases plays a key role in apoptosis. Caspase-3 is the most extensively studied apoptotic protein among caspase family members. Caspase-3 is synthesized as inactive pro-enzyme that is processed in cells undergoing apoptosis by self-proteolysis and/or cleavage by another upstream protease. The processed form of caspase-3 consists of large (17 kDa) and small (12 kDa) subunits which associate to form an active enzyme. The active caspase-3 proteolytically cleaves and activates other caspases, as well as relevant targets in the cells (e.g., PARP and DFF).

SPECIFICITY:

The antibody recognizes both pro-form and the cleaved large fragment of caspase-3 in samples of human, mouse and rat origin.

APPLICATIONS AND USAGE:

Western blot (0.5-4 µg/ml). However, the optimal conditions should be determined individually.

FOR RESEARCH USE ONLY! Not to be used on humans.
