

Calcineurin A Polyclonal Antibody

CATALOG NO: 3075-30T 30 µg (Trial size)
3075-100 100 µg

HOST: Rabbit

SPECIES REACTIVITY: Human, Mouse, Rat, Rabbit, Bovine, Hamster, Dog

IMMUNOGEN:

Synthetic peptide corresponding to residues surrounding amino acids 267 of human Calcineurin A (Internal ID# BV-C34).

FORMULATION:

0.2 mg/ml affinity purified, rabbit anti-Calcineurin A polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long-term storage, aliquot and freeze at -70°C. Avoid repeated freeze/thaw cycles.

BACKGROUND DESCRIPTION:

Calcineurin is a calcium/calmodulin-dependent serine/threonine protein phosphatase. The active enzyme is a heterodimer consisting of a catalytic A subunit of 61 kDa and a myristylated regulatory B subunit of 19 kDa that binds calcium. The catalytic A subunit consists of an amino terminal catalytic domain, followed by calmodulin and B subunit binding sites, and a carboxyl-terminal autoinhibitory domain. Calcineurin is the target of immunosuppressant drugs such as cyclosporin A and FK506. Calcineurin controls the translocation of nuclear factors of activated T cells (NFAT), a family of transcriptional activators that control the expression of cytokine genes essential to immune response, from the cytosol into the nucleus of activated T cells. Calcineurin has been proposed to play an important role in mediating calcium-activated cell death.

SPECIFICITY:

The immunoaffinity purified antibody detects a 61 kDa band, corresponding to the expected molecular weight of Calcineurin A on immunoblots. A 32 kDa band can also be detected in human samples, presumably to be the cleavage product of Calcineurin A.

APPLICATION AND USAGE:

The antibody can be used for Western blotting (1-4 µg/ml). Per researcher's feedback, it can also be used for immunoprecipitation (10-20 µg/ml). However, the optimal conditions should be determined individually. Blocking peptide (Cat.# 3075BP-50) is available separately.

Cat.# 3075-100

Western blot analysis of Calcineurin A in lysate from Jurkat cells (Lane 1) and rat kidney (Lane 2).
