

Human CellExp™ GTR / TNFRSF18, Rhesus macaque recombinant

CATALOG NO:	P1083-10 P1083-50	10 µg 50 µg
ALTERNATE NAMES:	AITR, GTR, TNFRSF18, CD357	
SOURCE:	HEK 293 cells (Gln 26 - Glu 161)	
PURITY:	> 95% by SDS – PAGE	
MOL. WEIGHT:	This protein is fused with human IgG1 Fc tag at C terminus and the protein has a calculated MW of 41.3 kDa. The predicted N-terminus is Gln 26. The protein migrates as 48 kDa under reducing (R) condition and 85 kDa under non-reducing (NR) condition on SDS-PAGE gel due to glycosylation.	
ENDOTOXIN LEVEL:	< 1.0 EU per 1µg of protein (determined by LAL method)	
FORM:	Lyophilized	
FORMULATION:	Lyophilized from 0.22 µm filtered solution in PBS, pH 7.4. Generally Mannitol or Trehalose is added as a protectant before lyophilization.	
STORAGE CONDITIONS:	Store at -20°C. After reconstitution, aliquot and store at -80°C and use within 3 months. Avoid repeated freezing and thawing cycles.	
RECONSTITUTION:	Centrifuge the vial prior to opening. Reconstitute in sterile deionized water to a concentration of 50 µg/ml. Solubilize for 30 to 60 minutes at room temperature with occasional gentle mixing. Carrier protein (0.1% (W/V) HSA or BSA) is recommended for further dilution and long term storage. Do not vortex. This solution can be stored at 2-8°C for up to 1 month. For extended storage, it is recommended to store at -80°C.	
DESCRIPTION:	Glucocorticoid-induced TNFR-related protein (GTR) is also known as Tumor necrosis factor receptor superfamily member 18 (TNFRSF18), activation-inducible TNFR family receptor (AITR), CD antigen CD357, which is a member of the tumor necrosis factor receptor (TNF-R) superfamily. GTR is receptor for TNFSF18, which seems to be involved in interactions between activated T-lymphocytes and endothelial cells and in the regulation of T-cell receptor-mediated cell death. GTR also mediated NF-kappa-B activation via the TRAF2/NIK pathway.	

The purity of rhesus macaque GTR / TNFRSF18 was determined by SDS-PAGE under reducing (R) condition and staining overnight with Coomassie Blue.
